

OIML DEVELOPMENT COUNCIL

Berlin, 25 October 2004

DECISIONS

The Development Council took note of opening addresses by the CIML Acting President Prof. Kochsiek and by its Chairperson, Mrs Annabi.

The roll call was made and it was noted that 31 Member States were present, as well as three Corresponding Members, two Observer Countries, four Organisations in Liaison and the CIML Immediate Past-President, Mr Faber.

The Development Council approved the Provisional Agenda without modification and made the following decisions:

- 1 The Development Council thanked Mr Seiler and his colleagues for the excellent organization of the Forum: *Metrology – Trade facilitator*, which had taken place earlier in the day.
- 2 The Development Council noted Mr Seiler's report on the meeting of the Permanent Working Group on Developing Countries (PWGDC), which was held on 24 October 2004, and endorsed the PWGDC's proposals.
- 3 The Development Council, considering that the organization of the OIML's work on developing countries is being more effectively handled by the PWGDC, proposed to the Committee that:
 - The tasks allocated to the Development Council by decision of the 6th International Conference of Legal Metrology in 1980 should be transferred to the PWGDC; and
 - The existing Development Council should cease to exist.
- 4 The Development Council expressed its appreciation to Mrs Annabi for her contribution to the OIML's work on developing countries during her tenure as its Chairperson since 1998. ■
